

AK-1000

AK-1000 is a class 1 acoustic calibrator designed for calibration of sound level meters and acoustic measurement channels

FEATURES

AK-1000 is recommended for use with the following sound level meters: OKTAVA-111, OKTAPHONE-110, ECOPHYSIKA, ECOPHYSIKA-110A and other class 1 sound level meters with 1/2 -inch microphones

SPECIFICATION

Standards	GOST R IEC 60942, class 1
Sound Pressure Level (SPL),	94,0 and 114,0 dB re: 20 uPa \pm 0,25dB
Frequency:	1000Hz \pm 0,7%
Harmonic distortion:	<2,5%
Weight:	<0,250 kg
Size:	158 x 35 (dia) mm

Operational environmental conditions:

■ air temperature,	- 10 °C to + 50 °C
■ relative humidity (at +40 °C),	<90%
■ static pressure,	65 to 108 kPa
